Thanks Jenny. Good catch on my 319 math. I was running the #s quickly and accidentally referenced the wrong cell in the equation. At least the picture isn't as bleak now. I've updated the spreadsheet attached.

For the discussion on the Ag issues in the FAQ, I made some edits related to the original conditions placed on OR's program. Someone in all the track changes, my original meaning was lost. See attached.

Thanks to all of you for all your comments on short notice. I went ahead and sent out the Q&A, since tomorrow looks to be a busy day, Non-Responsive Attached below is the version in tracked changes, though I made a few changes after this version. I put in everyone's comments and tried to meld them so it wasn't redundant.

The spreadsheet and bullet list that Allison sent was great. One thing I changed was the 319 calculation. When I looked at the spreadsheet, it looks like the wrong amount was carried over in Year 2 or 3 as the base amount to calculate the 30% penalty from. I put the new table in the briefing document. Let me know if I'm wrong on this and the #s in the spreadsheet are right.

Thanks again! I'll be very happy when Jayne comes back, but will keep on staying involved as I've been before. I had a Midcoast call today and left feeling a little depressed, so I'm glad that we're trying to have a broader-based discussion with the Governor's office.

Alan, I'm sorry I didn't get a chance to run this by you. FYI, for now, and we should talk more about how we plan to organize meetings especially with recent conversations with our attorneys and NWEA's.
